Editing a Booking

If you wish to change a booking, you can do so quite easily.

Go to the online booking page and click on the My Bookings button

Select the booking you wish to edit and click Book More. This will let you pick a new time slot, and retain the same customer details (or you can change them if details have changed).

Then, make sure you cancel the original booking.

We will be tracking all appointments and vehicles that do not show up at booked appointments may face financial penalties in the future.
